

# LOWEST PRICED NOISE METER

## WITH 2 YEAR WARRANTY

The Pulsar Model 14 will enable any competent person to conduct initial factory surveys in order to meet the "Noise at Work" legislation.

Typical applications: basic industrial machinery noise, vehicle noise, workplace noise, fire alarms, audible warning systems, boundary measurements and sound systems installations.

- Dual range of noise measurement covers all eventualities,
- Two year warranty,
- New LCD design for high visibility in low light conditions,
- Calibrator included,
- Maximum hold feature for variable noise situations,
- Windshield prevents damage; more accuracy,
- Compliance with Irish Law,
- Low range down to 35dBA allows boundary measurements.

**Introductory price**

**£530**

- Monitor • Calibrator •
- Windshield • Pouch •
- Documentation •
